

DRY HEAT STERILIZER S-40

Indispensable in every laboratory and dispence room

Laboratory dryer s-40 is now a basic equipment in every dispensing room-laboratories related with realization of technological process in witch drying, heating or conditioning in air atmosphere from room temperature to 300°C is necessary.

TECHNICAL DATA:

1. Capacity: 36 dm³ (l)
2. Structure

- external cover: steel metal sheet, powder-painted colour (RAL7035)
- working-place chamber and shelves: high-quality stainless steel 1,4301, permitted in food industry, pharmaceutical industry and others

	Full Proportions	Working-place chamber
height	440 mm	260 mm
width	485 mm	420 mm
depth	460 mm	300 mm

Device's mass: 32 kg

4. Microprocessor steering:

- digital display screen: actual and expected temperature, time of heating,
- time and temperature of heating option
- automatic optimization heating process and temperature stability system
- automatic engage and sound signalization after finish
- two platinum sensors PT1000
- overheating protection

24 MONTH WARRANTY

Producer ensures full warranty service and after-warranty service.

Dryer is in all-time stock.
